”

Sunny Worldwide Logistics (SZ) Limited. Our company was established in 1998, is a full-service domestic and international freight forwarder based in China. Over 26 years, we focus on the reliable customer service and company transport.

## Cargo from China to Dubai from the SWWLS company

With our expertise in international shipping, we're opening up opportunities for e-commerce entrepreneurs to sell Chinese goods on major marketplace platforms, particularly from China to Dubai. Our 3PL operator, SWWLS, can help businesses organize international commercial shipments from China to Amazon warehouses in Dubai.

Please trust us. From China to Dubai, we will provide a seamless and well-coordinated transportation process.

## What types of delivery from China to Dubai do we provide?

We offer various shipping options from China to Dubai. We can transport goods from warehouses in China to Amazon warehouses and various addresses in Dubai. There are several shipping methods available, with the two most commonly used being [air freight](#) and [sea freight](#).

## Sunny Worldwide Logistics Core Strengths

- ◆ **Sunny Worldwide Logistics:** Smooth Logistics, Proven by Users.
- ◆ Secured weekly buy out of 20 cargo pallets— 10x the shipping capacity of peers.
- ◆ Expedited pickup priority— urgent orders delivered to clients within the same day.

# Why Sunny Worldwide Logistics

## 1. Domestic Transport with Dedicated Fleet

We operate our own container truck fleet, transporting goods from Shenzhen factories to the airport in just 6-8 hours on average – a testament to our hard power.

## 2. Long-Term Block Space Purchase

We secure buyout of 20 pallet spaces weekly from two major airlines – 10x the shipping capacity of peers (who typically access only 2 spaces).

## 3. Priority Customs Clearance in UAE

Our exclusive airport channel clears shipments in 2 hours, while competitors often face 2-3 day delays.

## 4. Expedited Warehouse Pickup

Skip queues at bonded warehouses with our priority access, ensuring local delivery speed – a privilege unavailable to small/regular freight forwarders.

## 5. Round-the-Clock Middle East Network

We control extensive customs and logistics resources across the region – even answering calls at 2 AM.

## 6. Same-Day Door-to-Door Urgent Delivery

Morning shipments arrive by noon; noon shipments land by evening – faster than SF Express.

## 7. Real-Time Cargo Tracking

Full visibility at every node – our commitment level rivals that of cargo owners themselves.

## 8. Secure Handling of Sensitive/High-Value Goods

Zero seizure record. We resolve customs challenges other agents cannot handle.

## 9. Integrated Service Model

As both a primary Middle East air freight wholesaler and a door-to-door specialist, we invite you to try us with a small order first.

## Service Showcase

# Why Sunny Logistics can become one of the top 5 air freight forwarder

## 1. Dominant Capacity via Block Space Ownership

As one of the Middle East's top 5 air freight operators, we invest heavily in securing 20 permanent weekly pallet spaces from two major airlines – a capacity that surpasses competitors relying on scattered bookings.

- Competitors avoid locking space due to insufficient volume; our pallets remain fully loaded year-round, with 60% allocated to peer distributors.

- Unlike rivals facing overbooking/price surges during peak seasons (e.g., Ramadan), our scale-based capacity control guarantees stable rates and on-time delivery.

## 2. UAE Priority Customs Ecosystem

We leverage exclusive UAE resources, including pre-declaration channels with customs authorities to accelerate clearance:

- Priority clearance for urgent shipments; negotiate reduced inspection time (even waivers) for same-day delivery.

- Example: Lithium battery parts gain pre-approved clearance – inspection slashed from 24 hours to 2 hours, avoiding unpacking.

\*Note: Many small Chinese freight forwarders partner with us as intermediaries.\*

## 3. 20+ Years of Localized Ground Operations

**Our UAE-based team offers unparalleled expertise:**

- 50+ trucks covering direct routes across 6 Gulf countries (no third-party transfers).

- 500+ local staff providing 24/7 support (30-minute response time).

- Deep knowledge of religious holidays/policy shifts.

**Operational Results:**

- Under 48-hour stable delivery (vs. competitors' "last-mile paralysis" from outsourced fleets).

- Below 0.1% damage rate.

- Urgent shipments bypass warehouses: direct port-to-door dispatch – a service competitors seek to access.

## Industry Malpractices

### Malpractice 1

#### Changing Size/Weight After Pickup: Made-Up Trouble (Cost Fraud)

##### How they do it:

Some shady freight forwarders get your cargo, then intentionally make the size (length, width, height) bigger or the weight heavier on paper. Because air freight charges are based on whichever is higher - the actual weight or the size weight (called chargeable weight) - making the size bigger artificially increases the size weight. This makes the shipping cost jump up a lot. Some even completely invent "measurement data" that isn't real at all.

##### Why they do it:

It's the easiest way to cheat for extra profit. By lying about the size or weight (the basis for the charge), they add a big chunk of money to the basic shipping fee. Clients often get a shock when they see the bill.

##### The Shipper's Problem:

By the time you find out, the cargo is already in their warehouse or even loaded onto the plane. You're stuck! Questioning them takes time and proof (like your photos/videos from packing, your weighing records), but your shipment can't wait. Most of the time, to get your goods moving, you have no choice but to pay the inflated fee.

##### The Cost Hit:

Air freight is expensive already. If your size/weight gets inflated by 10%-30% or more, it eats directly into your profits. If this happens often, your whole shipping budget gets blown.

### Malpractice 2

#### Overpromising & Underdelivering (Service Fraud)

##### How they reel you in:

Some freight forwarder salespeople, desperate to get your business, make big promises they can't possibly keep:

Crazy-fast delivery: "Guaranteed 3-day delivery!" or "Door-to-door in 5 days!"  
100% customs guarantee: "We clear anything!" or "No customs issues!"  
Too-good-to-be-true prices: Offering rates way lower than everyone else.  
Full service claims: Promising "door-to-door," "real-time tracking," or "hassle-free support" - without having the actual resources.

##### What really happens:

Delays, delays, delays: Flights get held up, warehouses are jammed, transfers go wrong, customs gets stuck.  
Customs nightmares: Goods get held, you're asked for more papers, or worse - stuff gets sent back or destroyed.  
Tracking blackout: Once shipped, your goods vanish into a black hole. No updates, just stress.  
Promises broken: "Door-to-door" becomes "airport-to-airport." "Full tracking" might only show when it took off and landed - nothing in between.

##### The Client's Nightmare:

After you hand over your goods, you're stuck. Delays mess up your production schedule. Switching forwarders mid-shipment is expensive and often impossible (your stuff is already moving). You feel trapped, forced to accept terrible service and endless excuses while your shipment is held hostage.

### Malpractice 3

#### Surprise Fees & Price Hikes After Pickup (Cost Gouging & Bait-and-Switch)

##### How they pull it:

- Mid-shipment price hikes: After your goods are in their warehouse, they suddenly demand extra money to ship it. Excuses? "Flight space is tight," "fuel surcharge went up," "your cargo is special." Pay up, or your goods don't fly.
- Hidden fees at destination: When your goods arrive overseas, you get hit with a list of unexpected charges to get them released: Warehouse storage fees, handling fees, paperwork fees.

Inflated customs agent fees, inspection fees, fines (sometimes caused by their mistakes).  
Made-up fees like "management fee," "service fee," or "release fee."

##### The Attitude Flip:

Before pickup: The salesperson is super nice and helpful.  
After pickup: They turn cold and pushy. They might even threaten to "auction off or destroy your goods" if you don't pay immediately.

##### What it really is:

This is a classic bait-and-switch trap. They hook you with a lowball quote, then jack up the price once they have your goods. Knowing you're desperate to get your cargo and avoid bigger losses (like storage fees piling up), they basically blackmail you into paying these unfair charges.

##### The Damage:

Beyond the direct financial hit, this can wreck your supply chain, destroy trust with your customers, and seriously damage your business reputation.

How to do inventory count for customers

Sunny worldwide Logistics Team Unveils Latest Accomplishment with VIP Client Steve Comprehensive Inventory Audit Completed in swlws Warehouse

How to do inventory count for customers

Today, we are delighted to share the latest achievement of the Sunny Worldwide Logistics team. Our dedicated team recently conducted a thorough inventory audit at the Swlws warehouse for our esteemed VIP client, Steve, with whom we have collaborated for over a decade.

From 14:00 to 18:30, our team meticulously inventoried every item stored in our facilities, investing four and a half hours in this comprehensive exercise. This endeavor not only showcased our team's spirit of collaboration and professional acumen but also highlighted the exceptional services and capabilities of Sunny Worldwide Logistics in the logistics and transportation sector.

Case 2

Crisis: Logistics industry revenues fall by half

How will the company resolve the crisis?

As soon as I arrived at the office that day, I heard Tony, the sales champion of Sunny Worldwide Logistics Company, loudly saying that he had been dreaming of a big order air freight from China to UK since he started working as a freight forwarder. Now we have finally made a big order for air freight from China to UK. A customer once asked him to arrange a large clothing order for 100 square meters of air freight from China to UK, and I made a profit of RMB 30,000. If he had made a profit of RMB 60,000 five years ago.

Sales champion Tony has been working at Sunny Worldwide Logistics Company for almost 10 years. From the young man who lost his temper and had an impatient personality at the beginning, he has become a father with a calm personality and thoughtful service. Yesterday, while having dinner with several key members of Sunny Worldwide Logistics, JASON, an operator who has been working in the company for 6 years, joked that when she first came to the company, she saw TONY smashing his keyboard and phone. HELLEN, another operations supervisor who has been in the company for 5 years, said: TONY has grown very fast in the past few years. From failing in love to getting married to having children, every stage has undergone earth-shaking changes in terms of structure and performance. Sunny Worldwide Logistics is a good place to cultivate talents. The leaders here are willing to cultivate and accompany everyone to grow. It is this patience that makes so many people willing to work in the company until retirement.

Tony, the sales champion of Sunny Worldwide Logistics Company, was able to place this large air freight order from China to UK not only due to luck, but also due to his professionalism and experience, as well as his carefulness, ability to control the entire pallet, and He has the ability to make plans for customers. For this air shipment from China to UK, he checked the flight path of the plane online in the middle of the night to ensure the safety and timeliness of the cargo. At the same time, he also made a preparation plan if there was any problem with the plane.

Case 3

Air Freight from China: Complete 2025 Guide to Fast & Reliable Shipping

What is air freight and why it matters

Air freight—also known as air cargo, air shipping, or air transport—revolutionizes global commerce by moving goods via aircraft from Chinese factories to worldwide destinations faster than any other shipping method. Whether using passenger jets with cargo space or dedicated freight planes, air transport delivers urgent shipments when time is money.

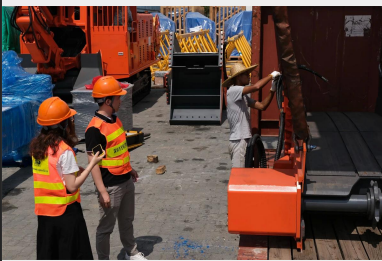

Why Choose Air Freight from China?

Speed That Transforms Business Imagine your precious cargo soaring above the clouds, zipping from bustling Chinese factories straight to your doorstep in just 3-10 days. This isn't just shipping—it's a competitive advantage.

Real Success Story: Sarah's Holiday Miracle Take Sarah, a Seattle e-commerce entrepreneur whose trendy gadget line sold out overnight during holiday season. Her Shenzhen supplier faced unexpected delays, threatening her entire sales period. Through professional air freight services, her stock was airborne within hours and landed stateside in just three days. Sarah not only saved her sales but transformed a potential disaster into a customer loyalty success story.

When Air Freight is Your Best Choice

- Urgent Deadlines: Product launches, trade shows, stock replenishment
- High-Value Goods: Electronics, luxury items, sensitive components
- Perishable Cargo: Fresh products, time-sensitive materials
- Small to Medium Shipments: Under 500kg typically cost-effective
- Market Opportunities: Capturing seasonal trends and demand spikes

## Air Freight Cost from China to Dubai

The air freight cost from China to Dubai is calculated in kilograms based on the weight of the shipment. The freight prices for different weights are different.

It's hard to say how much air freight will cost from China to Dubai. But we can give you a general idea. \$4 to \$10 is the standard price for air shipping between these two countries.

Origin Airport (China)	Destination Airport	Estimated Cost (USD/kg)
ShangHai Pudong (PVG)	Dubai International (DXB)	3.5
Beijing Capital (PEK)		3.4
GuangZhou(CAN)		3.6
Hong Kong International (HKG)		4.0
ZhengZhou (CGO)		3.3
XiaMen Gaoqi (XMN)		3.6
ChongQing(CKG)		3.9
QingDao(TAO)		3.8
NingBo(NGB)		3.7

Kindly be noted, that above costs are just estimates, and actual costs may vary depending on the specific details of your shipment.
